

Resolution - Standardize The Agricultural Exemption

Whereas Property Taxes have become a real threat to property ownership and must be reigned in.

Whereas the manner of granting an Agricultural Exemption is inconsistent from County to County;

Whereas at times the granting or withholding of an AG exemption appears arbitrary in any given county;

Whereas the county criteria for granting an AG exemption bears no relation to any real economic unit;

Whereas the original purpose of the AG exception was to:

- a) Make land ownership available to more than the just the super rich; and
- b) Recognize that unimproved acreage properties do not demand the same level of community services as improved properties:

Therefore Be it Hereby Resolved that we the Delegates of Precinct _____ Convention, hereby call for current laws to be amended to:

- a) Make permanent all currently existing AG exemptions;
- b) To the degree that an unimproved property is subsequently improved, the AG exemption will be forfeited only as to that portion of the property closely allocated to the added improvements;
- c) Existing back-taxes recapture shall no longer be collected.

Please take it to your Precinct Caucus which is held immediately following the close of the Polls on March 1st. You must go to the Polling location designated for your Precinct for Election Day; for some, early voting locations may be different than that of the official Election Day of March 1st.

YOU MUST TAKE THREE (3) COPIES OF THIS WITH YOU!

You can verify your location by going to: <https://www.votedenton.gov>
